

EMSI-2020

February 18-20, 2020

Dear Friends,

With great pleasure, I cordially invite you to participate in EMSI-2020, to be held at CSIR-Indian Institute of Toxicology Research, Lucknow, India from February 18-20, 2019.

The Environmental Mutagen Society of India (EMSI), founded in 1975, promotes scientific education and research in the field of mutagenesis. The Society is an affiliate of the International Association of Environmental Mutagen Society (IAEMS) and Asian Environmental Mutagen Society (AEMS). Every year, EMSI conference provides a scientific forum for the exchange of ideas and information about problems of mutagenesis at the experimental and clinical levels with emphasis on human health and environmental safety. The Conference is an amalgamation of researchers from diverse areas including biology, chemistry, pharmacy, toxicology, medicine and those engaged in public health. Consequently, it provides an excellent platform for fostering interdisciplinary research on environmental mutagenesis and to stimulate young minds by providing opportunities for young scientists to exchange their ideas and collaborate with peers in the field.

I am sure that we will have a great group of colleagues at this conference. It will be wonderful to see you all, and we are very excited to welcome you to Lucknow and for all the interactions during the conference.

Dr Devendra Parmar
Chair, Organizing Committee

Scientific Sessions

Sessions will include plenary lectures, invited talks and platform presentations apart from poster presentations with ample time/scope for scientific interactions/ deliberations

Topics to be covered

- ❖ Monitoring of environmental mutagens
- ❖ Methods to detect mutagens/mutagenesis
- ❖ Environmental mutagenesis and diseases in human
Climate change and ecotoxicology
- ❖ DNA damage and repair
- ❖ Molecular mutagenesis and carcinogenesis
- ❖ Genetic toxicology of industrial, and environmental pollutants and their remediation
- ❖ Food borne mutagens and food safety
- ❖ Nano-genotoxicology
- ❖ Biological and health effects of exposure to environmental chemicals
- ❖ Alternatives to and refinement of the use of animals for mutagenesis studies
- ❖ Molecular signatures for exposure and/or effect of mutagens
- ❖ Omic/ high-throughput approaches to understand chemical mutagenesis and carcinogenesis

Important dates to remember

Abstract submission:

Starts on: November 01, 2019

Ends on: January 15, 2020

Registration:

Starts on: November 01, 2019

Onsite registration- totally on availability basis

Guidelines for abstract

Title: Arial, Font 14, Bold

Authors: Arial, Font 12, Bold

Text: Arial, Font 12, Regular, ≤300 words

Key words: 5-6

Highlights: 4 bullet points (each <100 characters)

The online window for Fee payment, registration and abstract submission opens from November 01, 2019. Please visit <http://www.iitrindia.org/>

Local organizing committee

Chairman: Dr Devendra Parmar

Conveners: Drs K Ravi Ram & Alok K. Pandey

Treasurer: Dr Kausar M. Ansari

Members: Drs Kailash C. Khulbe & Gyanendra Mishra

Registration fee

Category	November 01 to December 31 2019		January 01-31, 2020		February 01, 2020 onwards	
	Indian Delegate (INR)	Foreign delegate (US \$)	Indian Delegate (INR)	Foreign delegate (US \$)	Indian Delegate (INR)	Foreign delegate (US \$)
EMSI Life member	3500	150	3500	150	4500	200
Non-EMSI member (Faculty/Scientist/Postdoc)	4250	200	5250	250	6000	300
